PES (Playstation) FIFA ASO WHAT I'M So, what is this?? It is the auto installer deluxe 4.53. WHAT THIS DEB DOES: This is an auto-installer for the Pocket Wireless Gaming Receiver for the Xbox Classic. It combines the auto installer deluxe 4.53 with the prcjpsi. It is also v2.3 compatible with the previous auto-installer deluxe which is v4.51. So, the previous version will NOT work with this one. The reason this auto-installer is v2.3 instead of v4.51 is because "Microsoft has made new changes" and and Microsoft decided to re-make the auto-installer instead of update it.. Microsoft have back-dated the update, even though there isn't one. This automatic installer won't be supported any longer once the current version of v4.53 is released. ²:¹:WILL NOT WORK WITH VERSION 4.51, it is the same as v2.3 except this one has an auto-installer deluxe v5.11 (different files).²:The auto-installer for v4.53, will not be supported.²:The auto-installer for v5.11, will not be supported.
