Ville de Verdun | Portrait of Verdun A reminder: If you had a password change and are not receiving the email, please contact us at [support@visitorcenter.fr](mailto:support@visitorcenter.fr) â€¦ Showing 1-25 of 1,889 Help Center A forgotten Verdun password can be reset from the sign-in page. Photo Gallery. The application of these theories has, in fact, sometimes been disproved. On the other hand, the fact that the theory was often applied to places other than Verdun

---

suggests that the application of the theory to Verdun is, on the whole, probably valid. At least some of the shell remnants at Verdun are said to be proof that the French attempt to break the fortress was  $\hat{A}$ . It was meant to be one of the strongest positions for the German Army, and was built during the World War I. According to the legend, the French are throwing all their might into this battle and then they begin to pull out their troops. Verdun map Image Capture.

Q: Show that  $f(z)$  is a polynomial and  $f(-z)=f(z)$  Let  $f(z)$  be a polynomial with complex coefficients. Assume that  $f(i)=f(i), \dots, f(-i)=f(-i)$ . Show that  $f(z)$  is a polynomial and  $f(-z)=f(z)$ . I know that  $f(z)=f(i)+f(-i)+f(i)f(-i)+\dots$  is true. I only need to prove  $f(z)$  is a polynomial and  $f(-z)=f(z)$ . How to proceed, or did I miss
